PRIME
HARDCORE SPORTS NUTRITION

FOR PARTNER GYMS

The Prime reception guide

Which products to keep at the front desk, who they are for, when to take them and what to tell a member in ten seconds. Bars, shots, sachets and the small products that sell themselves.

Prime Sport Supplements SRL · primesupplements.ro

Edition 11.11.2026

ABOUT THE BRAND

Built in competitive bodybuilding, made for every athlete.

Prime Supplements was founded in 2022 in Sibiu County, Romania. Our mission is to educate and inspire athletes and to improve their performance.

The supplements are designed to support athletes up to the highest level of performance. The ranges serve both competitive athletes and people who train and want healthy, tailored nutrition.

We analyse demand, athletes' needs and raw materials, and we keep raising quality. That is how we work towards our mission: to set a new standard in the supplement market, to support athletes on their way to peak performance and to offer products tailored to their nutritional needs.

Hardcore Sports Nutrition

Hardcore Sports Nutrition is our motto and the mindset behind the company. The formulas, with their micro- and macronutrients, were designed after many years of study and experience in competitive bodybuilding. For us it is more than a motto that pushed us to look for the right balance in our products: it is a mindset that drives anyone to go beyond their own limits through dedication to their goal, supported by the balance between nutrition and training.

EDUCATE
Clear labels and a product blog that explains what each product contains, how much to take and when.

INSPIRE
A brand that comes from the gym floor and speaks the language of people who train.

PERFORM
Formulas adapted to what athletes need before, during and after training.

THE FOUNDER

Marius Chera

Marius Chera founded Prime Supplements in 2022. He is one of the best-known bodybuilding coaches in Romania and the first Romanian coach to have prepared athletes who earned the PRO card within the NPC organisation. His experience in bodybuilding is the basis on which the products were optimised: the range he recommends to bodybuilders throughout their preparation is the Prime Supplements range.

HOW TO USE THE GUIDE

Three questions and a well-stocked shelf.

The front desk sells most when it asks, not when it waits. Every product in this guide comes with a sentence ready to say. We don't promise effects: we say what the product contains, who it is for and when to take it.

The three front-desk questions

1

WHAT ARE YOU TRAINING TODAY?

Strength or heavy → creatine, pre-workout (vial or Nitrox). Cardio or a class → Fat Burning Shot, EAA in the water bottle.

2

HAVE YOU EATEN BEFORE / WILL YOU EAT AFTER?

Hasn't eaten → Creamy Rice or a bar now. Nothing to eat afterwards → bar, Prime Whey Go sachet, shaker.

3

WHAT DO YOU ALREADY TAKE?

Nothing → start with the bar and a sachet. Protein → creatine. Creatine → Creapure or pre-workout. All of it → vitamins, D3 + K2 in winter.

What goes where

Counter, next to the till (impulse)

Bars, all 4 flavours, in the open box. Sachet holder: Creatine Ready To Go and Prime Whey Go. The Prime shaker.

Drinks fridge

Energy Pump Shot and Fat Burning Booster Shot, cold, on the eye-level shelf next to the water.

Shelf behind the desk (in sight)

Prime Whey 1 kg (2–3 flavours), Creamy Rice, Creapure and micronised creatine, Nitrox 3D, EAA, Instant Oat Cream.

At the till, seasonal

Autumn–winter: Vitamin D3 + K2 and Daily Vitamin Formula, with a small sign. Summer: the shots and EAA up front.

House rules

- The sample sells the tub: the Prime Whey Go sachet is the sample for Prime Whey 1 kg, the Energy Pump vial is the sample for Nitrox 3D.
- Caffeinated products (shots, Nitrox 3D) are not recommended late in the evening, for minors, pregnant women or people sensitive to caffeine.
- Supplements do not replace a varied diet. We don't promise weight loss, muscle gain or results; we describe the product and the dose on the label.
- The bar box and the sachet holders are refilled every morning; an empty shelf doesn't sell.
- Restocking orders: through your Prime agent or at contact@primesupplements.ro · +40 775 286 584.

FRONT-DESK STAR

Prime Delicious Bar

protein bar, 55 g · box of 12

Coated protein bar: the protein snack for after training or on the go.

Strawberry

Salted caramel

Coconut & caramel

Chocolate & forest fruits

WHO IT IS FOR

All members, including those who don't take supplements. The easiest product to sell at the front desk.

WHEN TO TAKE IT

After training or as a snack between meals, when there is no time for a proper meal.

WHAT TO SAY AT THE DESK

“Have you eaten anything after your workout? We have the Prime bar, with protein, in four flavours. Salted caramel is the gym's favourite.”

WHERE TO DISPLAY IT

On the counter, next to the till, with all four flavours in sight. Restock daily.

How to sell the bars

- Open box on the counter with all flavours in sight; a missing flavour means missing sales.
- The golden question after training: “Have you eaten anything?”
- A pack of 3 bars for members who come three times a week.
- The flavour to try first: salted caramel; for those who don't like it too sweet: chocolate & forest fruits.

BEFORE TRAINING

Energy Pump Shot

liquid pre-workout, 25 ml vial · box of 20

Liquid pre-workout with caffeine, ready to drink: one vial = one serving. No shaker or water needed.

Variant: Wild Berries

WHO IT IS FOR
Members who arrive tired, in the evening after work, or who don't want a powder.

WHEN TO TAKE IT
15–20 minutes before training. Not late in the evening (contains caffeine).

WHAT TO SAY AT THE DESK
"Coming straight from work? Take an Energy Pump vial, drink it here at the desk and go train."

WHERE TO DISPLAY IT
In the drinks fridge (best served cold) or on the counter, next to the bars.

CUTTING

Fat Burning Booster Shot

25 ml vial · box of 20

Liquid shot with L-carnitine and caffeine, one vial = one serving, for cutting phases and cardio sessions.

Variant: Forest Fruits

WHO IT IS FOR
Members doing cardio or group classes and those trying to lose weight (no promises: the product goes with the training, it doesn't replace it).

WHEN TO TAKE IT
Before cardio or training. Not late in the evening (contains caffeine).

WHAT TO SAY AT THE DESK
"Doing cardio today? We have the L-carnitine shot, you drink it before, straight from the vial."

WHERE TO DISPLAY IT
In the fridge, next to Energy Pump. The two vials sell well together.

SACHET

Creatine Ready To Go

effervescent 10 g sachet · box of 25

Flavoured creatine monohydrate in an effervescent sachet: it dissolves in a glass of water, no powder and no scoop.

Flavours: Blue Moon · Pink Madness

WHO IT IS FOR
Members who want to try creatine without buying a tub, or who left their creatine at home.

WHEN TO TAKE IT
One sachet a day (a daily intake of 3 g of creatine increases physical performance in successive bursts of short-term, high-intensity exercise), rest days included.

WHAT TO SAY AT THE DESK
“Do you take creatine? We have it in sachets too, one a day, it dissolves in water. Try one today after your workout.”

WHERE TO DISPLAY IT
In a sachet holder on the counter, next to the till, with both flavours.

SACHET

Prime Whey Go

whey protein sachet, 30 g · box of 15

Prime Whey as a 30 g single serving: one sachet, a shaker of water, the post-workout shake.

Flavours: Chocolate Coconut · Bourbon Vanilla · Strawberry Cheesecake · White Chocolate Raspberry · Toffee Chocolate · Salted Caramel · Blueberry Vanilla

WHO IT IS FOR
New members who don't have protein yet, and those who want to taste the flavours before buying the 1 kg tub.

WHEN TO TAKE IT
After training or as a snack, whenever the day is short on protein.

WHAT TO SAY AT THE DESK
“No protein with you? A Prime Whey Go sachet in the shaker with water and you're done. It's also how you choose the flavour for the big tub.”

WHERE TO DISPLAY IT
Sachet holder on the counter, next to the creatine sachets. The Prime shaker next to it.

THE CORE PRODUCT

Prime Whey 1 kg

whey protein concentrate, 33 servings

Prime whey protein, the 1 kg tub. Protein contributes to a growth in muscle mass and to the maintenance of muscle mass.

Flavours: Blueberry Vanilla · Chocolate Coconut · Salted Caramel · Strawberry Cheesecake · Toffee Chocolate · White Chocolate Raspberry · Bourbon Vanilla

WHO IT IS FOR
Anyone who trains regularly and doesn't cover their protein needs from food. The product most people start with.

WHEN TO TAKE IT
One serving (30 g) after training or instead of a snack; 1–2 servings a day, depending on meals.

WHAT TO SAY AT THE DESK
"How much protein do you eat a day? If you don't reach 1.6 g per kilo of body weight, a Prime Whey shake covers the gap. There are 7 flavours, here's a sachet to taste."

WHERE TO DISPLAY IT
On the shelf behind the desk, in sight, 2–3 flavours. The Prime Whey Go sachet is its sample.

BREAKFAST

Creamy Rice

cream of rice, 1 kg, 22 servings

Pregelatinised cream of rice: easily digested carbohydrates, ready in one minute with water or milk, no cooking.

Flavours: Chocolate cake · Blueberry muffin · Salted caramel · Coconut cream pie · Maple syrup · Cookies & cream · Unflavoured

WHO IT IS FOR
Members who train in the morning, those in a bulking phase and anyone who wants a quick, filling breakfast.

WHEN TO TAKE IT
Breakfast or the pre-workout meal (60–90 minutes before). It also works with a sachet of Prime Whey stirred in.

WHAT TO SAY AT THE DESK
"What do you eat before training? Cream of rice is ready in a minute, you can even make it at the office. Chocolate cake is the most popular."

WHERE TO DISPLAY IT
On the shelf, next to Prime Whey. It sells well together with the protein (a protein breakfast).

CREATINE

Micronised creatine

unflavoured creatine monohydrate, 300 g, 60 servings

Micronised creatine monohydrate, unflavoured, to mix into a shake or any drink. The affordable creatine.

Variant: Unflavoured

WHO IT IS FOR
Members who want the simplest creatine at the best price per serving, or who mix it into their protein.

WHEN TO TAKE IT
One scoop (5 g) a day, every day, at any time; the hour doesn't matter, consistency does.

WHAT TO SAY AT THE DESK
"Creatine is the most studied supplement in the gym: 3 g a day, every day. This is the unflavoured one, you add it to your shake."

WHERE TO DISPLAY IT
On the shelf, next to Creapure. The white tub stands out among the black ones.

PREMIUM CREATINE

Creatine Creapure®

Creapure® creatine monohydrate, 300 g or 500 g

Creapure® branded creatine monohydrate, made in Germany, with purity guaranteed by the manufacturer.

Flavours: Unflavoured · 300 g (60 servings) · Unflavoured · 500 g (100 servings)

WHO IT IS FOR
Members who know what they're looking for and ask for Creapure, competitive athletes, those who want "the best".

WHEN TO TAKE IT
3–5 g a day, every day, with water or in a shake, rest days included.

WHAT TO SAY AT THE DESK
"If you want the creatine with the best reputation, Creapure is the German brand the professionals use. Same creatine, verified purity."

WHERE TO DISPLAY IT
On the shelf, at eye level. The 300 g tub is the entry point, the 500 g one is for regulars.

BEFORE TRAINING

Nitrox 3D

pre-workout powder, 500 g

A complete pre-workout with caffeine, citrulline, beta-alanine and creatine. One scoop in a shaker of water before training.

Flavours: Cherry · Pineapple Mango · Passion Fruit · Strawberry Lime

WHO IT IS FOR
Advanced members who train hard and want a “real” pre-workout, not just a vial.

WHEN TO TAKE IT
20–30 minutes before training. Not late in the evening. Beginners start with half a scoop.

WHAT TO SAY AT THE DESK
“The vial is for today; if you want a pre-workout every day, Nitrox 3D works out cheaper per serving and comes in four flavours.”

WHERE TO DISPLAY IT
On the shelf, next to the shakers. The Energy Pump vial on the counter is its sample.

RECOVERY

EAA amino acids

essential amino acid powder, 500 g, 83 servings

All nine essential amino acids in a soft-drink flavoured powder. Drink it during training or instead of juice.

Flavours: Peach Ice Tea · Blueberry · Strawberry & Kiwi · Tropical

WHO IT IS FOR
Members who train for long sessions, people doing intermittent fasting and those who don't want a protein shake at the gym.

WHEN TO TAKE IT
During training (in the water bottle) or between meals.

WHAT TO SAY AT THE DESK
“What do you drink while you train? EAA is like a juice, but with amino acids. Peach Ice Tea is the flavour you can't go wrong with.”

WHERE TO DISPLAY IT
On the shelf, next to Nitrox 3D.

EVERY DAY

Daily Vitamin Formula

vitamins and minerals in sachets, 30 sachets

Multivitamins and minerals in sachets, one dose a day dissolved in water. One box = one month.

Variant: Flavoured drink sachets

WHO IT IS FOR
Members who already take vitamins, people who eat on the run, the cold season.

WHEN TO TAKE IT
One sachet a day, in the morning, with water.

WHAT TO SAY AT THE DESK
“Do you take vitamins? These come in sachets, one a day, and a box lasts a month. They sell a lot in autumn.”

WHERE TO DISPLAY IT
On the shelf or at the till in the cold season, next to Vitamin D3 + K2.

COLD SEASON

Vitamin D3 + K2

80 capsules, Prime Health

Vitamin D3 with K2, one capsule every other day. Vitamin D contributes to the normal function of the immune system and to the maintenance of normal bones.

Variant: Capsules

WHO IT IS FOR
All members, from October to March, when there isn't enough sun. The most requested product of the cold season.

WHEN TO TAKE IT
One capsule every other day, with a meal that contains fat.

WHAT TO SAY AT THE DESK
“In winter you can't get vitamin D from the sun. One capsule every other day, and the bottle lasts almost half a year.”

WHERE TO DISPLAY IT
At the till in the cold season, with a small “Vitamin D for winter” sign.

BREAKFAST

Instant Oat Cream

instant oat cream, 800 g, 25 servings

Finely ground, flavoured instant oats: made with water or milk, without cooking, like a cream.

Flavours: Chocolate · Cookie

WHO IT IS FOR
Those who want oats for breakfast but have no time to cook them; the alternative to cream of rice.

WHEN TO TAKE IT
Breakfast or the pre-workout meal.

WHAT TO SAY AT THE DESK
“Do you eat oats in the morning? This one is ready in a minute, no cooking, in chocolate or cookie flavour.”

WHERE TO DISPLAY IT
On the shelf, next to Creamy Rice.

ACCESSORY

Prime Shaker

600 ml, transparent black

The 600 ml Prime shaker with a strainer, for protein, creatine or EAA.

Variant: Transparent black, Prime logo

WHO IT IS FOR
New members, those who left their shaker at home, those buying their first tub of protein.

WHEN TO TAKE IT
With every powder sale: “Do you have a shaker?”

WHAT TO SAY AT THE DESK
“Do you have a shaker? Take ours, 600 ml, with a strainer, and you've got today's protein sachet too.”

WHERE TO DISPLAY IT
On the counter next to the sachets, and on the shelf next to the tubs. It carries the brand around the gym.

FREQUENTLY ASKED AT THE DESK

Short, correct answers.

“Is creatine bad for my kidneys?”
For healthy adults, 3–5 g a day is the dose on the label and the one that has been studied. Anyone with a medical condition or taking medication should ask their doctor. We don't give medical advice at the desk.

“Should I take creatine before or after training?”
The time doesn't matter, taking it every day does. With water or in a shake, rest days included.

“Does protein make you fat?”
Protein is a food, not a medicine: one serving of Prime Whey is roughly a large yoghurt. What counts is the day's total, not the shake.

“Can I drink two vials?”
One vial a day. They contain caffeine: not in the evening, not with a lot of coffee, not for minors or during pregnancy.

“Is the bar good for weight loss?”
It's a protein snack, a better choice than a wafer. Weight loss comes from total calories and training, not from a bar.

“Which flavour is the best?”
Prime Whey and Whey Go: Salted Caramel and Strawberry Cheesecake. Bars: salted caramel. Creamy Rice: chocolate cake. Nitrox: Cherry.

“Where can I see the ingredients?”
On the label and on primesupplements.ro: every product has its own page with the nutrition table and a blog article explaining how to use it.

“Is it made in Romania?”
The brand is Romanian, from Sibiu; the products are made in the European Union.
